The Speech and Hearing Clinic

## UGA Speech and Hearing Clinic Fee Information

- As we are an educational training facility, speech-language pathology fees tend to be lower in our Clinic than in the private sector.
- We offer a sliding fee scale for therapy services to those who apply and qualify based on financial need.
- To be considered for a fee adjustment, an application must be submitted to our clinic office each semester. A copy of your most recent income tax statement, W-2 form, or current paycheck stub is required to verify income.
- Adjusted fees will be based on total gross annual income, adjusted for the number of dependents in the family. Other financial needs may also be taken into consideration.
- Clients who are unable to pay the adjusted fee amount should discuss their needs with the Clinic Office Manager or Clinic Director. Various payment plans may be arranged with the Clinic. No individual will be denied therapy services because of inability to pay.
- We accept payment by cash, check, or credit cards.
- All clients are requested to update their registration information and submit a copy of their insurance card, if applicable, at the beginning of each semester or when there is a change in insurance coverage.
- A physician prescription may be required, if needed for reimbursement or the type of service you will receive.
- The sliding fee scale may not be combined with insurance coverage or other discounts. Regular fees are required for insurance billing.
- Some clinic fees are not eligible for an adjustment or may require a minimum payment.
- Clients may also apply for scholarship funding for assistance with fees, when funding is available through our foundation accounts.
- Please inquire in our clinic office for a sliding fee scale or scholarship application, if needed.
- A waiver in fees associated with services received may result in the client receiving a 1099 tax form.
- The fee a client pays will not affect the quality or quantity of services rendered.
- Contact 706.542.4598 for more information on clinic fees and financial assistance.
